

# **Mazda CX-5 - Heated seats comparison test**

- 2018 Mazda CX-5 GT
- Test conducted in an open unheated garage at 4 degrees C ambient temperature, car doors closed, no wind, engine running
- Temperatures were recorded with an IR scanner set at a distance of approximately 12" from centre of the seat cushion bottom
- Both seat heaters were set to high (level 3), activated simultaneously
- **Results below show clearly that the drivers's seat was demonstrably warmer at every time point**
- All values below in degrees Celsius
