#### Configured Vehicle

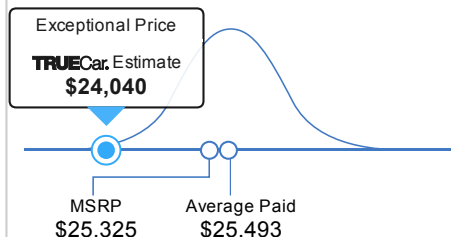

A Configured Vehicle represents the combination of a base model vehicle, plus any preferred factory-installed options and colors selected during the configuration process. The Configured Vehicle is used to produce an Estimated TrueCar Price, which is provided by Ramsey Mazda as an example of the savings you can expect from the dealership for an identically configured, in-stock model or factory order. The configuration of a vehicle does not guarantee that this specific vehicle is available at the dealer or available for order. If your Configured Vehicle is not in stock at Ramsey Mazda, your Certified Dealer Contact can help you with ordering your Configured Vehicle from the manufacturer, if possible, but delivery time may be considerable (typically 8-12 weeks). If it is possible to order your Configured Vehicle, then Ramsey Mazda will sell it to you for the Estimated TrueCar Price, without any special order fees, subject to any changes in possible manufacturer incentives as of the date you take delivery of your vehicle. Limited availability option packages as well as diesel and hybrid engine options may be priced differently by the dealer. Ramsey Mazda may also provide you with the option of considering new and Pre-Owned Vehicles similar to your Configured Vehicle from its available in-stock inventory.

#### Estimated Savings off MSRP

The Estimated Savings off MSRP for your Configured Vehicle, subject to verification of the items noted below and provided that your Configured Vehicle is available for order, your Estimate Savings off MSRP represents the amount that Ramsey Mazda guarantees that you will save off of MSRP for a vehicle consistent with your configured preferences plus any customer incentives currently available. MSRP is determined by the manufacturer and may not reflect the price at which vehicles are generally sold in the dealer's trade area.
