DATE: 12/21/2021

SUBJECT: 2022 CX-5 – TRAILER TOW HITCH AND TRAILER HITCH HARNESS ACCESSORY INSTALLATION

Due to a revised rear bumper for the 2022 CX-5, the current accessory trailer tow hitch and trailer hitch harness cannot be installed at this time, even though the tow hitch does not change. The trailer tow hitch requires updated installation instruction and the anticipated timing for the updated instructions is Winter 2022. As for the current trailer hitch harness, the harness is too short and cannot be used. A new harness is in development and the estimated hitch harness availability is Spring 2022.
